

## OTHER Components

Nordson MEDICAL offers additional fluid management products to healthcare OEM. Included are clamps, large bore luer-type fittings, and injection spikes. Custom solutions are available when you require a very specific product to meet your needs.

### CUSTOM FLUID MANAGEMENT COMPONENTS

Are you looking for a stopcock, check valve or quick connects in a specific color, material, or configuration? Nordson MEDICAL has you covered with an array of product development and manufacturing capabilities to develop a product that perfectly meets your needs. Whether it's a slight modification of one of our extensive catalog components, a design that you need manufactured, or something completely unique that requires full product development, Nordson MEDICAL has the experience and proficiency to support your project from concept through full-scale manufacturing.

Nordson MEDICAL has a wide range of capabilities that are utilized throughout the product development process to ensure the finished developed product is successful for years to come. Many of the custom engineered products developed by our Fluid Management team have been on the market for decades and are continuing to thrive.

Learn more about how Nordson MEDICAL is your single-source partner with the capabilities to support your custom engineering solution from innovation to product launch.
